Concerned About Your Next Step?

Stop

- Calm yourself down. Take a few deep breaths.

Think

- Think through the different options that are available for you. Keep things in perspective.
- Remember that the O-Level is not the end point and is only one part of your life journey.

- Decide and act based on your options.

When you receive your results, you may experience a range of emotions.

Managing these emotions well will allow you to stay calm and make rational decisions.

Reaching out for support is a sign of strength

If you have questions about your options or are not coping well, you can reach out to trusted adults such as a parent/guardian, teacher, school Counsellor or ECG Counsellor. You can also talk to a trusted friend.

For Students Considering Private Education

The 3Rs when deciding on Private Education

Reasons

- Why are you furthering your studies?
- What are the job prospects for your preferred course?

Readiness

- How ready are you to further your studies?
- Can you cope with the academic rigour and assignment deadlines?
- Can you fund your studies?

Risks

- Do you know the possible drawbacks?
 - Your expected returns may not exceed the investments you put into your private education.
 - Private schools may make exaggerated claims.
 - Private schools may close due to various reasons.
 - You may not get a full refund if you withdraw from your course.

8 Things You Should Know Before You Enrol in A Private School

<https://go.gov.sg/choosingapei>

School Registration

Ensure the school is registered with SkillsFuture Singapore (SSG). Review the school's registration period, expiry date and its overall registration track record.

Partner Institution

Research on the partner institution conferring the diploma or degree, and whether the qualification is recognised by the industry.

EduTrust Certification Scheme

Is the school EduTrust-certified*? Under the scheme, private schools are assessed for their performance in areas such as school management and provision of student support services.

**Schools are required to obtain EduTrust certification in order to offer external degree programmes*

School Premises

Head down to the campus ground to check the facilities and support services. Observe the study environment too.

Fee Protection

Ask if there is any course fee protection so that you will be able to recover unconsumed course fees should the school close down.

Beyond Course fees

Find out about the course syllabus and materials, graduation rates and employment prospects. Approach the alumni to find out what they think of the school.

Teachers

Check if the teachers are qualified to teach the course.

Internship

If industry attachment is included, find out which organisation you will be attached to, the period of attachment and the alternative arrangement should the attachment become unavailable. Verify the information with the organisation as well.
